DIE HEAD CHASERS

ESSENTIALS:

The following pages list Quality Chaser Insert chasers in many popular diameter and pitch combinations. The numbers listed across each row represent the different cutting edge grinds that are available. Tools listed in the first column are stocked without the chamfer or cutting edge grind, hence the term "Semi-Finished". The following six columns list finished chasers with the final grinding operations complete. Please order *finished* numbers whenever possible.

Our line of insert chasers is manufactured from premium-grade M2 steel. We also offer these chasers made from premium-grade M-42 "cobalt". Part numbers listed on the following pages signify M2 product.
